New Product Preview
by a LEGO Fan!

My building experience was fun and challenging. I built the large blue robot from the instructions and two smaller robots. I also built a helicopter/space radar vehicle. I like to build from the instructions first then use my imagination.

I really liked all the different color pieces. I've never seen these in another LEGO set. I was excited when I finished the big robot and saw how many moveable parts there were. I showed it to my mom, my sister and my friend. My friends are going to like this because it's similar to BIONICLE and we really like them.

The first time I built for about six hours but I'm not done. I'm still building with this set!

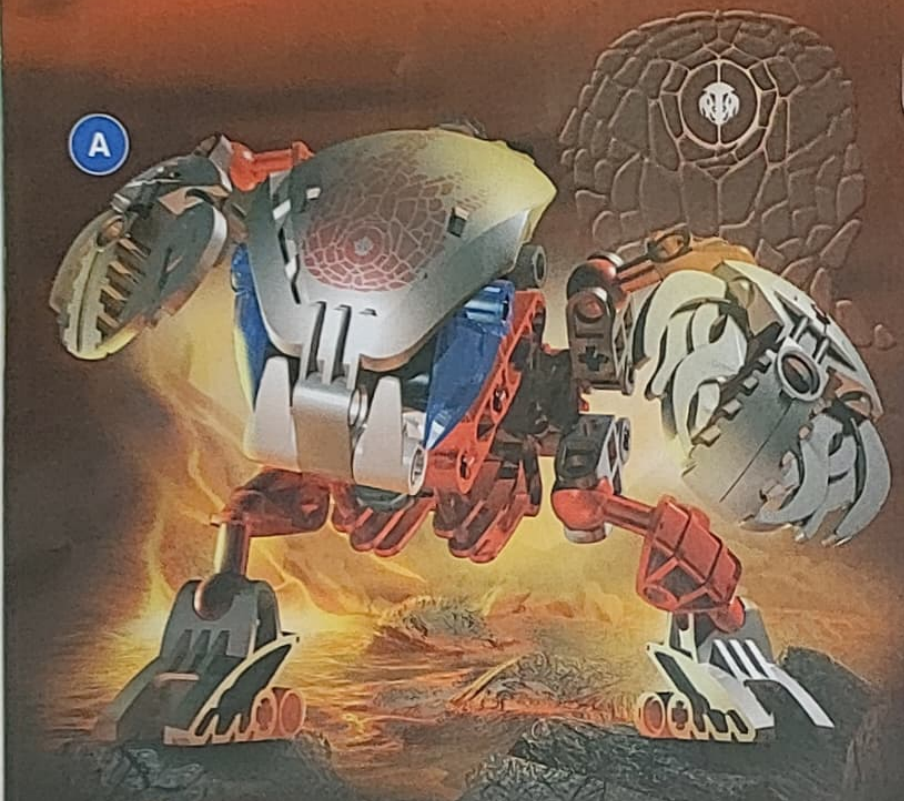
Six Reasons To Hide!

The Bohrok-Kal are an elite squad of Bohrok with amazing powers. Their mission: free the queens of the Bohrok and unleash the swarms once again. Their master plan: steal the powers of the Toa Nuva and leave the heroes of Mata Nui helpless! Will the Toa Nuva's first adventure be their last?

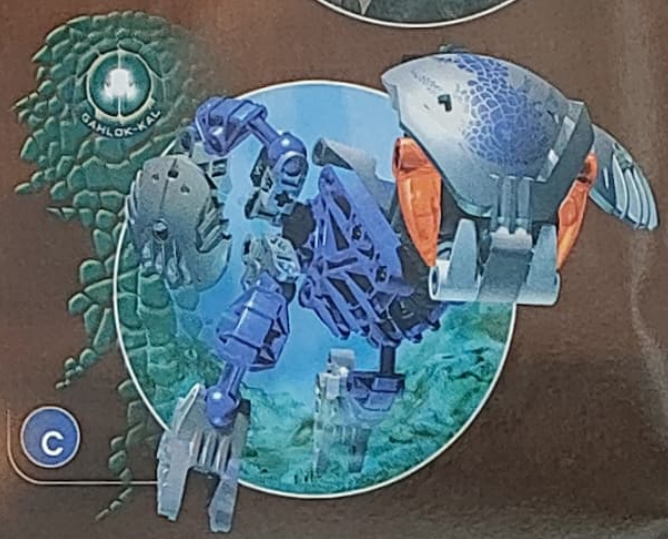


A. Electrifying energy!

Fast and powerful, Tahnok-Kal is the leader of the Bohrok-Kal squad. Its power shield can hurl lightning bolts or create an awesome force field of electrical energy that no Toa Nuva can overcome!
Ages 7+. 40 pieces.
#8574 Tahnok-Kal $7.99

B. The power of gravity!

One of the most dangerous of the Bohrok-Kal, Nuhvok-Kal has single-handedly defeated both Tahu Nuva and an entire Bohrok swarm. With its gravity shield, Nuhvok-Kal can increase gravity (making an opponent too heavy to stand), or eliminate gravity (causing a foe to float into the air)! Ages 7+. 40 pieces.
#8573 Nuhvok-Kal $7.99



C. Master of magnetism!

Gahlok-Kal's magnetic powers are so great that this Bohrok-Kal could root Lewa Nuva to the ground – and not even the Mask of Speed could break him free! Its magnetic shield can also be used to create a powerful force field. Gahlok-Kal can slip in and out of any place without being detected, actually "flowing" around obstacles in its path.
Ages 7+. 40 pieces.
#8578 Gahlok-Kal $7.99

D. Force of nature!

A master of ambush and surprise, Lehvak-Kal seems to appear and disappear at will. Its vacuum shield can absorb all of the air in the area and then release it in a single blast that can shatter solid rock!
